

Date: April 14, 2026 **Time:** 2:30 PM - 3:30 PM Eastern

Presentation Title: Battle of the β -Lactams: Cefazolin vs Antistaphylococcal Penicillins for MSSA Infections (RSS Tampa General Hospital-4/14/2026)

Objectives : At the conclusion of this activity, the participant should be able to:

- 1 Review relevant epidemiology, pathophysiology, and etiology of disease states encountered by pharmacists at a tertiary care health system.
- 2 Discuss the pharmacology, pharmacokinetics, and literature of pertinent medications used as standard of care for common disease states seen in the tertiary care setting.
- 3 Summarize published literature regarding an area of clinical controversy or developing research for common disease states encountered in a tertiary care health system.
- 4 Compare and contrast the presented evidence with current practices at the tertiary care health system and identify opportunities for changes to practice based on relevant or new evidence.

Accreditation:

The University of Florida College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.
